### PROJECTS

#### My Pets Webpage

- The webpage is named "My Pets," which suggests a potential focus on Pets or a Pet Care theme.
- HTML is used to create the page's content structure, while CSS is employed to style and design the elements on the page.

#### Coder's Lab

- I 've developed a responsive IT webpage using Bootstrap. It's designed to adapt seamlessly to various screen sizes, providing an engaging and accessible experience for visitors.

#### Trippy बाबा

- I 've developed a Travelling webpage using jQuery. It's designed to provide an engaging and accessible experience for travellers who want to travel around the world. It's especially designed for Tourists.
